PURE VOLATILE EUCALYPTUS OIL.

DISTILLED FROM THE LEAVES OF

SELECTED SPECIES OF

EUCALYPIUS. ENUCALYPTUS OIL has long taken a foremost place as a "household remedy" in Australia. When applied externally it has a powerful stimulant and soothing action but does not blister the most sensitive skin and no application known will so quickly subdue the pain of muscular rheumatism.

Taken internally in small doses, it sots as powerful stimulant and antispasmodio, whilst its secondary action induces sleep. The penetrating agreeable vapour of the Oil is sedative, and when inhaled relieves Ashma. Bronchitis, Catarrh, and Sore Throat. It is also a most powerful aptiseptic and germicide, being three times as effectual as Carbolic Acid in preventing development of Bacteria, its uses in this direction being very numerous.

The active properties of the Oil depend upon

Terpene called Eucalyptol, and we guarantee

this Oil, prepared specially for us, to contain the

twice that of the ordinary Eucalyptus Oil of Cents 50 and \$1 00.

He is placed there for the opinion of the Colony, he does not fulfil and the taxpayers have a right to complain when they see the funds voted for carrying it out expended for other though admittedly scientific objects. The Observatory was established primarily for the purpose of obtaining weather forecasts, in order that typhoons and gales could be studied and their course and rate of travelling are rately predicted. That Dr. Dobunck has studied the subject no one will deny, but that he has made the most practical and most timely use of the information be is in a position to obtain is strongly disputed. Sometimes, however, the case against him is put with absurd extravegance. It has been asked, for metance, how it is that our first typhoon warnings still come from the Manila.
